## *SIFA meet on fisheries*

**BUSINESS BUREAU**

**Hyderabad:** Society for Indian Fisheries and Aquaculture (SIFA) will hold south Asia's biggest knowledge and technology conference on fisheries here during March 15-17, 2018. SIFA says India has huge potential to become one of the top exporters in the global market and generate huge employment, according to a release. The three-day event is expected to attract over 200 exhibitors across the world.

V Ramachandra Raju, President, SIFA, on Tuesday announced the formation of new body for fisheries and aquaculture sectors. "The forming of the SIFA today is a big step as well to enhance and integrate the Indian

fisheries and aqua culture ecosystem. Our scientific, academic, technology and water resources offer great opportunity for growth of the industry," said Raju.

Announcing the objective behind AquaEx India 2018, organizers of the event said that they focus on creating a global platform for Indian fisheries and aquaculture by bringing the latest technologies, services, equipment and machinery across the globe for the benefit of Indian fisheries and aquaculture sector.

Dr Vijay Gupta, chairman, advisory board of SIFA, said: "The forming of SIFA will integrate the eco system and address the issues of farmers, processors and other stakeholders.

## 'AquaEx India 2018' to get global focus

**SPECIAL CORRESPONDENT**

**HYDERABAD**

Hyderabad will host the first ever global scale International Trade and Technology event on Indian Fisheries and Aquaculture AquaEx India 2018 from March 15 to 17 next year.

The event is being organised by the recently formed Society for Indian Fisheries and Aquaculture (SIFA) in association with Department of Fisheries, Telangana, AquaApp and Hitex Exhibition Centre is expected to attract more than 500 exhibitors from fisheries and aquaculture countries and regions across the world.

The AquaEx India would create the global platform for Indian fisheries and aquaculture by bringing the

latest technologies, services, equipment and machinery from across the globe for the benefit of Indian fisheries and aquaculture sector, the organisers said at a media conference here on Tuesday.

C. Suvarna, Commissioner, Fisheries said though Telangana did not have a coast, it has huge scope for developing aquaculture in its water bodies. Hyderabad with its pharma and biotech companies provided the vital link to meet the requirements of aquaculture. She said SIFA which chose Hyderabad as the venue for the global event could assist the State in formulating better aquaculture policies to bring investments into the sector.

## BUSINESS BUREAU

Hyderabad

Hyderabad will host South Asia's biggest knowledge and technology conference in Fisheries from March 15-17 in Hitex Exhibition Centre. The three-day event will see 200 exhibitors from several countries. Announcing the objective behind AquaEx India 2018 organisers said, "Our idea is to create a global platform for Indian Fisheries and Aquaculture by bringing the latest technologies, services, equipment and machinery

across the globe. We also want the world to see and have insights about our nation's fisheries trade potential and open the doors to thousands of seafood professionals seeking to grow their businesses in the global market."

V Ramachandra Raju , president, SIFA said, "The industry needs support in terms of new technologies, new species, quality inputs, efficient equipment and machinery, better services, quality manpower and efficient marketing to further increase the fish production

and productivity to result in profitability and sustainability. Through this platform we hope to address and help solve these issues."

Dr Suvarna Chandrappagari, IFS, Commissioner, Fisheries at Government of Telangana said the Government is keen to support the growth of the industry in the state. "We would like to encourage new entrepreneurs to venture into this sector and we are hopeful we will be able to contribute to the growth of the industry and aqua consumption," she said.

## Hyd to host AquaEx in Mar 2018

**ENS ECONOMIC BUREAU**  
@ Hyderabad

THE fisheries and aquaculture sector, which is currently growing at a uniform rate of 5-6 per cent, is likely to expand at a higher rate, according to V Ramachandra Raju, president, Society for Indian Fisheries and Aquaculture.

"India is next to China in fish and aquaculture production. Fish production stood at 10.79 mt during 2016-17 continuing to grow at the rate of 5-6 percent. The annual export of fish and aquaculture products from India has crossed ₹30,000 crore,

The sector has scope for further growth as there is huge potential to increase domestic consumption as well as exports," said Raju, after announcing the details about AquaEx India 2018, an international expo of fisheries and aquaculture.

AquaEx will be held in March 2018 in Hyderabad. Stakeholders from aquaculture sector from across the world will participate in it.

"Although the Indian fisheries and aquaculture is growing steadily over the years, industry needs support in terms of new technologies, new species, quality inputs, efficient equipment

and machinery, quality manpower and efficient marketing to further increase the fish production and productivity. Through AquaEx, we want to introduce global developments in these sectors to Indian aquaculture sector stakeholders and present about the opportunities available in India to foreign aquaculture players. It will be a global platform for Indian fisheries and aquaculture sector," he added.

According to industry insiders, fish production increased from 0.75 mt in 1950-51 to 10.79 mt during 2016-17 and India exports seafood to 101 countries."
